DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Janet Hood on December 16, 2008.

The application has been amended as follows:

Amendments To The Claims:

In claim 7, lines 9-11, please replace the text " the regulating circuit configured to control voltage output from the first power supply component so that deviation exceeding the maximum permissible voltage level is reduced or prevented. " with -- wherein the regulating circuit is adapted so that when a deviation beyond the maximum permissible voltage level, from a reference voltage value, occurs, voltage output from the first power supply component is adjusted to reduce the deviation. -- .

In claim 10, lines 1-2, please replace the text " the maximum permissible voltage differential " with -- the maximum permissible voltage level -- .

Please cancel claim 23.

2. The following is an examiner's statement of reasons for allowance:

Claims 7-8, 10, and 13-22 are allowed because none of the prior art of record

discloses or suggests a regulating circuit connected to control output of at least a first of the power supply components with respect to the maximum permissible voltage level during operation of the communication system, wherein the regulating circuit is adapted so that when a deviation beyond the maximum permissible voltage level, from a reference voltage value, occurs, voltage output from the first power supply component is adjusted to reduce the deviation, in combination with the remaining claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments, see Remarks, filed September 17, 2008, with respect to the rejections of claims 7-8, 10, and 13-22 have been fully considered and are persuasive. The rejections of claims 7-8, 10, and 13-22 have been withdrawn.
